

# The 3R's (Session 1)

**aviral**

Reducing Plastic Waste  
in the Ganga

Powered by:

Implemented by:

In Coordination with:

These are five common everyday single use plastic items harming our environment.  
Which ones have you used this month?

Plastic Shopping  
Bags

1

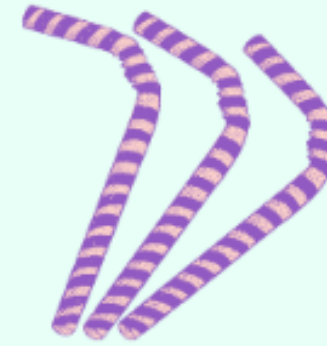

Plastic Cutlery

2

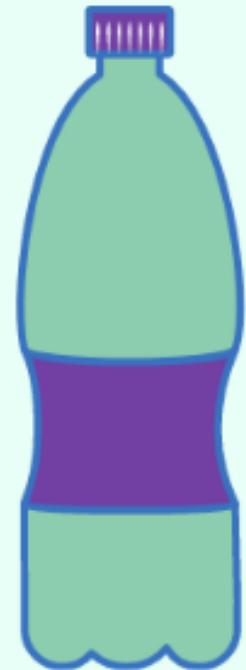

Balloons and Balloon  
Sticks

3

Plastic Straws and  
Drink Stirrers

4

Plastic Bottles

5

# What are the 3r's?

## Take a guess!

# What are the 3r's?

## Take a guess!

REDUCE  
REUSE  
RECYCLE

# Reduce

**Avoid the need  
to use an item**

# Do we really need a single-use plastic bag or water bottle?

We use these items only once and these single use items stay in the environment for over 500 years

The best way to manage waste is not create it all!

# Reuse & Repair

When you reuse  
or repair an item  
you give it many  
lives

# What single use plastic items can we replace?

## SINGLE USE

Plastic bag  
Plastic bottle  
Plastic straw  
Plastic Balloons  
Plastic Cutlery

## REUSABLE

Cloth bag  
Steel bottle  
Metal straw  
Eco Decorations  
Eco Cutlery

# But how can we reuse items? By upcycling or repairing!

Using plastic bottles to  
make fun planters

Using old clothes to make  
carry bags or phone holders

Repairing old items instead  
of throwing them away

## And many more....

# Recycle

Sending an item  
to be recreated  
into a new item

# What household items can be recycled?

# How can we recycle our waste?

1. Collect and store all your dry waste at home
2. Make sure the dry waste is clean and dry
3. Give it to your neighborhood kabbadiwala
4. Give segregated waste to your local waste collection vehicle

**TIME FOR A  
VIDEO !!!**

# Activity Time!!!

## Make your own recycling buddy

1. Find a waste item like a unused tin can, shoe box, oil container etc
2. Make a fun recycling bin using paints, stickers made of waste items etc. **The more colorful the better**
3. Bring your recycling buddy to school in your next session
4. The most creative bin will be displayed in school

# Any questions?

See you in the next class and  
remember to bring your  
recycling buddies!

# Thank You!
